

CREATING AN IMPLEMENTATION PLAN

On the second page of this document, you will find a table that will help you lay out your school or district's implementation plan. You will be asked to identify your objective(s), how you will measure success, your timeline, the personnel responsible and the resources required. Below you will find some suggestions to help you get started.

SAMPLE OBJECTIVES

- To ensure students will complete a career portfolio
- To ensure students will complete career assessments
- To ensure students will create a course plan reflecting their future plans
- To ensure students will create an employment toolkit
- To ensure school will understand student intent as it pertains to college
- To have students will complete a career research project
- To ensure students meet a provincial/district mandate for career development
- To assist transition students/students with special needs
- To implement a structured career development curriculum
- To engage parents in career development
- To involve the whole school in career development
- To ensure students are career ready
- To ensure students are college ready
- To involve community members to help students with their career readiness
- To aid counsellors in providing individual counselling for students
- To aid counselors in providing group counselling for students
- To ensure students will be prepared to complete a job search
- To assist students in self-directed career exploration
- To provide structure to a career course
- To provide materials for a careers unit
- To provide structure to a careers workshop or module
- To teach financial literacy
- To increase student engagement in school
- To improve school retention
- To engage at-risk students in school
- To make the most of limited career development time
- To guide student through the college application process
- To demonstrate accountability for career development
- To introduce students to career development early
- To provide a platform for student to build an electronic portfolio to carry with them from K-12
- To infuse career development across the curriculum
- To teach students to work effectively in teams

CREATING AN IMPLEMENTATION PLAN

WHAT ARE YOU GOING TO DO?

- Have students complete Career Matchmaker
- Have students complete My Skills
