

EXPLORE OPTIONS

With self-assessments complete, students begin to consciously understand what motivates them and what their strengths and skills are. They turn their focus to finding appealing career options, and exploring higher education institutions. Career Cruising for K-12 provides the tools needed to help students find a career path unique to them. Here's how they can explore:

COMPREHENSIVE CAREER EXPLORATION

Students match assessment findings with career and education possibilities through rich, engaging content that supports multiple pathways. Career options most closely matching assessment results are presented to students in rank order. They can then explore career profiles with job description, expected salary based on geographic location, and video interviews. Students also see what educational prerequisites are needed to enter the career of interest.

Four-year college degrees aren't for everyone, and Career Cruising recognizes this. The expansive career database includes options for all educational pathways, from high school diplomas to 4-year degrees and beyond. Results can also be filtered to show careers based on educational requirements.

The image shows two screenshots of the Career Cruising website. The top screenshot displays a 'Career Videos' section with a featured video titled 'So, you want to be a Clinical Dietician...' and a list of related video interviews: 'Career Interview: Clinical Dietitian', 'Career Interview: Clinical Nutrition Manager', 'How to Work in Nutrition', and 'Dietitians and Nutritionists'. The bottom screenshot shows a detailed profile for 'Building Inspector'. It includes a 'Save to My Plan' button, a 'At a Glance' section with a description: 'Building inspectors make sure new and old buildings comply with building and safety codes.', a list of 16 career clusters (Architecture & Construction, Government & Public Administration, Law, Public Safety, Corrections & Security), an 'Earnings Range' of \$30K - \$55K, a 'Level of Education' requirement of '2-Year College or Technical Training', and a 'Suitable for You?' indicator with a checkmark. A 'Job Search' section at the bottom allows users to search for job postings.
