Implementation Suggestions
(For a School Setting)

▸ Integrate ccSpringboard into the curriculum wherever possible

▸ Assign specific exercises involving the program

▸ Build staff awareness through presentations at staff meetings

▸ Provide access information (website address and school's username and password) in materials sent home to parents

▸ Provide access information for students whenever the program is used as part of a class or counseling session

▸ Disseminate access information to students through morning announcements, student handbooks, etc.

▸ Put up posters and provide access cards in computer areas (library, computer labs, career center, guidance office, etc.)

▸ Require that students maintain EDPs so they can build on previous career exploration activities

▸ Develop a student mentor program

▸ Monitor usage using the Career Advisor Management System (CAMS)

▸ Contact your client account manager for tips and suggestions that suit your specific needs

Structured In-Class Use **+** **Self-Directed Use Outside of Class** **=** **SUCCESS!**
